

PICCOLO

NEW HEATER WITH BIG ADVANTAGES

5 KEY BENEFITS

Discreet! The thinnest front panel ever manufactured by Convectair.

Comfortable! Temperature controlled by a built-in electronic thermostat.

Chill stopper! Quick heat on demand.

Budget friendly! Unmatched quality and price ratio!

Space maker! Recessed installation gives you more room.

ANOTHER GREAT HEATER FROM

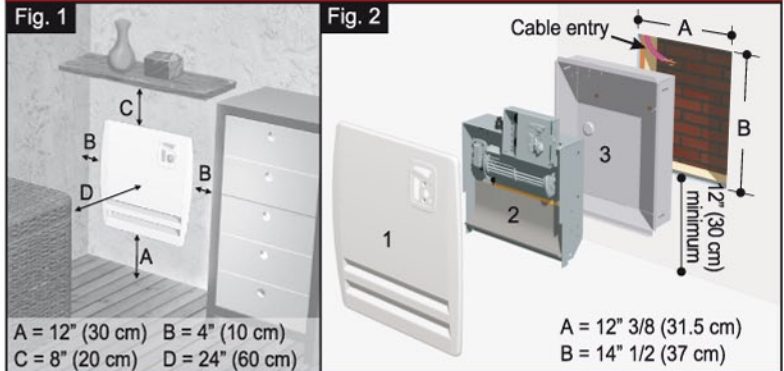

CONVECTAIR

PICCOLO

INSTALLATION AND CONNECTION

Installation	Built into the wall, between studs. Depth required: 3" 3/8 (8.6 cm)
Connection	240v, with direct connection in the unit - top left. Removable front panel; installation and wiring through the front.
Note	Visible thickness: 1" (2.2 cm).

HEATING ELEMENT

Total capacity	1 500 W
Fan-forced heat	750 W controlled by thermostat + 750 W on demand. Low-thermal-mass heating element combined with low-pressure tangential blower (squirrel cage).
Thermal protection	Reset overheat protection by turning heater off.

TEMPERATURE CONTROL

Thermostat	Built-in electronic proportional-action thermostat for basic heating.
Timer	30 minute electronic timer for on demand heating.
Programmer	Programmer-compatible, pilot wire only. 3-conductor cable or 2-conductor cable plus a third wire should be used if units is to be linked with the Convectair Programmer module (7392 FP).

CONTROL PANEL

Location	In front of the unit.
Switch	On / Off switch, also serves as reset for overheat protection. Timer: Activates / Deactivates on demand heating (30 minute or less).
Dial	Electronic thermostat control.
Indicator lights	1- On / Off 2- Timer 3- Heating

CABINET

Steel	Gage 20, steel construction with polyester/epoxy anti-rust powder coating.
Cabinet	Thin profile construction with rounded edges.
Louvers	Air outlet hides the unit interior and directs heat towards the center of the room.
Colour	White

Product Number	Watts 240V	Front panel			Recessed cabinet			Net Weight	Price MSRP
		Height	Width	Depth	Height	Width	Depth
